

Database Foundations

2-4 : Unique Identifiers

Practices

Exercise 1: Identify the Unique Identifier and corresponding Primary keys

Overview

In this practice you identify the unique identifiers and the corresponding primary keys from the given scenarios.

Tasks

1. How do you find a particular song in the whole collection? What would be a unique identifier for SONG?
2. Think about all the students in the classroom. Each student is described by several traits or attributes. Which attribute or attributes allow you to pick a single student from the rest of the class?
3. For each entity, select the attribute that could be the unique identifier of each entity.

Entity: STUDENT

Attributes: student ID, first name, last name, address

Entity: MOVIE

Attributes: title, date released, producer, director

Entity: LOCKER

Attributes: size, location, number

Exercise 2: Identify the Unique Identifiers and add to the ERD

Overview

In this practice, you will identify unique identifiers and add to an ERD.

Tasks

1. Use the Academic Database ERD from the previous exercises to identify the following:
 - a. Unique Identifiers
 - b. Candidate Unique Identifiers
