

Database Foundations

6-7 : Restricting Data Using WHERE Statement Practices

Exercise 1: Restricting Data Using SELECT

Overview

In this practice you limit the rows displayed with:

- The WHERE clause
- The comparison operators
- Logical conditions using AND, OR, and NOT operators

Tasks

1. Display the course details for the Spring Session.
2. Display the details of the students who have scored more than 95.
3. Display the details of the students who have scored between 65 and 70.
4. Display the students who registered after 01-Jun-2012.
5. Display the course details for departments 10 and 30.
6. Display the details of students whose first name begins with the letter "J".
7. Display the details of students who have opted for courses 190 or 193.
8. Display the course details offered by department 30 for the Fall Session (Session ID 200)
9. Display the course details of courses not being offered in the summer and fall session (Session ID 200 and 300).
10. Display the course details for department 20.
